The Science of Superior Penetration

Formula 7® utilizes a unique, multi-pronged approach to ensure the active antifungal ingredient reaches the site of infection:

- ✓ **Proven Antifungal:**
Contains **Tolnaftate**, a trusted agent effective against fungus.
- ✓ **Patented Delivery System:**
Our **oil-in-water microemulsion** (patented 2021), featuring cosmetic-grade **Jojoba Oil**, rapidly distributes the soluble Tolnaftate through the nail plate.
- ✓ **Enhanced Permeability:**
Urea gently softens the nail plate, increasing its permeability for deeper medication penetration.
- ✓ **Biofilm Disruption: N-Acetyl-L-Cysteine (NAC):**
Further enhances Tolnaftate flux through keratin *and* provides a bactericidal boost, helping break down stubborn biofilms common in infections.

Quality You Can Trust

Formula 7® has an NDC number, indicating FDA registration as a medication. It's also formulated in strict compliance with **cGMP (Current Good Manufacturing Practice)** standards, so you know you can trust every aspect of its production.
