

ENHANCE PATIENT OUTCOMES WITH

Formula 3®
Antifungal

Clean Sweep®

Dear Clinicians and Care Coordinators,

For years, [The Tetra Corporation](#) has enhanced patient care with trusted antifungal solutions. We're reaching out now because [Formula 3® Antifungal](#) and [Clean Sweep® Antimicrobial Shoe Spray](#) are available for in-clinic dispensing at BioPed. Below, we explain why that's good news for you and the patients you serve.

Formula 3® Antifungal: Clinically Proven Topical Efficacy

Manufactured in Canada, [Formula 3®](#) is an over-the-counter product that features prescription strength Tolnaftate, which is a powerful antifungal. Tetra is known for its patented technology which uses [all-natural jojoba oil as a vehicle for tolnaftate](#). It's the first-ever option to feature zero separation between the tolnaftate and the vehicle carrying it, allowing direct delivery and quick absorption at levels previously unheard of!

- ✓ **Targeted Treatment:**
Indicated for **both tinea pedis and onychomycosis**, featuring Tolnaftate 1%.
- ✓ **Enhanced Penetration:**
Unique oil-soluble formulation designed to **effectively penetrate the nail bed**.
- ✓ **High Patient Compliance:**
Odourless, non-greasy formula dries quickly without residue, **encouraging consistent use**.
- ✓ **Soothing Formula:**
Contains natural Jojoba oil to condition skin and nails.
- ✓ **Professional Trust:**
Relied upon by foot care specialists for effective topical antifungal therapy. **Paraben-free!**

Benefits for Your Patients

1. Addresses common nail & skin fungal infections effectively.
2. Makes your practice a one-stop shop for assessment AND treatment. No more sending folks hustling across town to a pharmacy means a higher chance the product will be used as intended, when intended.
3. Promotes adherence with an easy-to-use, comfortable application.
4. Provides a trusted, non-prescription topical option.

Clean Sweep®: Breaking the Reinfection Cycle & Eliminating Odour!

Address the environmental factor in fungal infections and odour! [Clean Sweep®](#) disinfects footwear, crucial for preventing recurrence. And it does so without the drawbacks of other options on the market.

Great option to keep orthotics smelling fresh and prevent fungus/bacteria from setting in!

Clean Sweep® can...

- ✓ **Reduce Environmental Load:**
Kills 99.9% of odour-causing bacteria and fungus on contact within the shoe.
- ✓ **Prevent Cross-Contamination:**
Essential adjunct to topical prescription therapy, minimizing reinfection risk from contaminated footwear.
- ✓ **Improve Patient Satisfaction:**
Effectively eliminates embarrassing shoe odour, addressing a common patient complaint.
- ✓ **Offer Lasting Protection:**
Provides a durable antimicrobial barrier inside all types of footwear.
- ✓ **Safe & Simple:**
Easy patient instructions; safe for all shoe materials.

Benefits for Your Patients:

1. Directly targets the shoe environment to reduce reinfection rates.
2. Solves the common (yet stubborn) problem of persistent shoe odour.
3. Complements antifungal treatments for better overall outcomes.
4. Free from harmful chemicals, fragrances, and irritants.

Treating the fungus in the patient with [Formula 3®](#) while simultaneously disinfecting the shoe environment with [Clean Sweep®](#) addresses the full scope of the problem. This synergistic approach helps ensure higher treatment success rates and reduces the likelihood of frustrating recurrence. *Offer your patients an all-in-one solution!*

IMPORTANT NOTE: Tetra's products are not available through retailers, online, or otherwise! Our clinical dispensing model ensures that **you** are the exclusive resource for patients seeking these products, which are only available through The Tetra Corporation.
